

## Pressure on Aussie Govt to save koalas

---

Sat, 21 Apr 2012 2:29p.m.

Animal groups want the koala added to the list of nationally threatened species

There is pressure on Australia's government today to do more to save the koala population.

Animal groups want the native icon added to the list of nationally threatened species before the deadline at the end of this month.

Shadow Environment Minister Luke Foley says adding the koala to the list will provide new protections for the rapidly declining populations.
