Koala makes comeback

IT WAS heart-warming to see Lesley's release in recent weeks. Many Noosa readers will remember the tragedy of her collision with a car on Leslie Dve last year.

The darling koala mum had a baby on her back and, it was discovered later, one in the pouch. She lost both her joeys in the accident, and very nearly her own life as well. A remarkable comeback. Let's not let it happen again - slow down on the roads, particularly where you see the signs.
