

## Not so funny run

OUR apathetic approach to the demise of koalas is such that it now makes international news. Olivia Mokiejewski does wildlife programs for French television and will be here soon to do a show on koalas. It should not take her too much digging to identify plenty of old State Government and pro-development Redland council policies that led to much bushland being cleared. Mokiejewski will do her bit by taking part in a koala fun run on May 29. Now that's a relief.
